*Featuring a Keynote Address By:*

**U.S. Rep. John Conyers, Jr., (D-MI)**  
Sponsor of HR870, "Humphrey-Hawkins 21st Century Full  
Employment and Training Act"

Join progressive leaders and activists to discuss strategies for defending our rights to earn, learn, and live in dignity. In the wake of the all-out attack against workers' rights and against programs that help our communities, it is more important than ever to come together across movements and push to realize a vision of FDR's "Second Bill of Rights." Panelists will discuss a roadmap to fight back and push for progressive priorities including ending wars and militarism; enhancing workers' rights; and developing economic policies that promote jobs and communities instead of corporate profits.
